

The Routemaster

Layer Marney Tower is pleased to offer the use of an original red London Transport Routemaster bus – RML 2398. Whether it is for friends and family coming to a wedding, delegates coming to a conference, or a society going on a magical mystery tour, there is now a way to travel together and travel in style.

With smart Layer Marney Transport livery and finished in iconic London Transport red, guests will be able to enjoy the journey to Layer Marney Tower, chatting together and with no worries about taking a wrong turning or not turning up on time. No parking problems, no drink driving problems and peace of mind for non driving guests: the advantages are numerous.

Typically, the Routemaster will collect guests from up to two locations and then come on to Layer Marney Tower. If you are having a wedding at a church then guests may be collected from one pick up point, taken to the church and then driven onto Layer Marney Tower. The top speed of a Routemaster is a modest 40mph, so we recommend pick up points such as hotels, railway stations or houses within a 20 mile radius of Layer Marney Tower.

For the typical journey outlined above, the charge for hiring the Routemaster in 2026 will be £625, payable on booking. We will be delighted to provide a quotation for alternative types of journey.

At the end of the evening guests may return using taxis, minibuses or a modern coach. We have details of many local companies and will be pleased to put you in touch with them. Alternatively, for an additional £275, we will return your guests to two local destinations of your choice, with the Routemaster departing from Layer Marney Tower not later than 12.30am. Please be aware that late night winter journeys on the Routemaster will be a little chilly!

If you would like to hire the Routemaster please telephone 01206 330784 to discuss your journey requirements, availability and we will then prepare a quotation.
